

Assistant Instructor Course

The SDI Assistant instructor course is designed for you to gain practical teaching experience with an active SDI Instructor or Instructor Trainer. You will help an Instructor teach an Open Water Scuba Diver course, Advanced Diver Course, and Rescue Diver Course. Your SDI Instructor will also teach you to

- Prepare lesson plans
- Give academic presentations
- General dive management techniques.

Upon completion of the course you may teach and certify Skin Divers, conduct the Inactive Diver Program, and conduct the knowledge Quest review in the Open Water Diver Course. With some additional training, you could go on to teach the following SDI courses;

- Altitude Diver
- Boat Diver
- Computer Diver
- Equipment Specialist
- Marine Ecosystems Awareness Diver
- Shore/Beach Diver
- Underwater Photographer Diver
- Underwater Video Diver
- Visual Inspection Procedures
- CPROX Administrator
- CPR1st Administrator
